Request for Proposals

Title: Enterprise IT Systems Assessment and Roadmap
RFP No: RFP-CHT-FY22-001
Date of issuance: 24 March 2022, Reposted 11 May 2022

1. Background

Since 1987, Conservation International has worked to spotlight and secure the critical benefits that nature provides to humanity. Combining fieldwork with innovations in science, policy and finance, we’ve helped protect more than 6 million square kilometers (2.3 million square miles) of land and sea across more than 70 countries. With its global office based in Arlington VA, CI has offices in 30 countries including the US and over 1300 staff.

CI is currently implementing a campaign through 2025 to achieve ambitious impact targets to stabilize our climate by protecting and restoring nature, doubling ocean protection, and expanding planet-positive economies. To meet these targets, CI expects to nearly double its budget over the coming 5-year horizon, both through an increase in direct implementation by CI staff and through increased grant making.

The following business priorities have been identified as critical to CI’s success and for which technology upgrades/enhancements may be required in addition to policy and business process developments.

1. Effectively track and communicate project performance within project teams and at the program and portfolio level
2. Capture and analyze data on our strategic impact
3. Increase the speed of our procurement process for grants and contracts as well as diversify the types and geographic distribution of recipient organizations.
4. Support effective fundraising efforts globally
5. Provide timely, relevant financial and budgeting data and financial planning tools
6. Recruit, onboard and retain high-performing staff
7. Foster a culture of inclusion, diversity, and connectivity for CI’s 30 country programs and 70+ other countries where CI engages through local partners
8. Manage risk in an increasingly complex regulatory and security environment
9. Effectively share knowledge across programs, including leading science, to improve program outcomes.
10. Provide consolidated data from programs, impacts, and financials to allow for complete and accurate strategic and managerial decision making
11. Deploy innovative conservation technologies and principles to achieve our program outcomes

2. Project Overview
CL's current IT infrastructure has challenges in responding efficiently and effectively to meet our current and future organizational goals. Therefore, we are soliciting vendors to perform an assessment of the current IT state, provide recommendations on the future-state enterprise architecture of CL, and develop a prioritized roadmap of projects and actions to actualize the future state.

CL's IT infrastructure includes a centralized IT team based in our Arlington office with IT staff posted in field offices servicing both that offices IT infrastructure and regional IT staff reporting to the Arlington team to support the global infrastructure which includes enterprise-wide communication and collaboration tools such as the Microsoft suite, SharePoint, Business World, Oracle HR, Raisers Edge, Salesforce, Power BI, etc. In addition, various CL programs had developed or procured software solutions to meet their specific project or program’s needs. We currently do not have enterprise software solutions for our monitoring and evaluation function or to support basic project management and knowledge management. We also have functionality gaps in our enterprise systems in various critical areas including but not limited to HRIS and recruitment, procurement. Various teams within CL are in the process of evaluating and securing IT solutions to these needs. We operate both cloud-based and on-premises software solutions. Connectivity in low-bandwidth locations is an important consideration.

This project is sponsored by the Information Technology division in collaboration with key stakeholders from all divisions across CL. It is anticipated that the project would include interviews with representatives from the following business areas:

- Finance, including Accounting, Budget and Reporting
- Grants and Contracts
- HR, including Performance Management, Training and Development
- Recruiting
- Branding + Communications
- Development, including Fundraisers and Operations Staff
- Global Programs, including the Moore Center for Science
- Field Programs and Operations, including a selection of representatives from CL field offices
- Global Partnerships, which include primarily our fundraising units, but also our grantmaking units.
- Project Management, Knowledge Management, and Monitoring, Evaluation, and Learning which falls under multiple business areas
- General Counsel and Risk Management Division, including Legal, Internal Audit, Risk Management and Safety and Security

**Terms of Reference, Deliverables and Deliverables Schedule**

The objectives of this project are to:

- gather/validate IT-related business needs of CL
- develop a recommended future-state enterprise ecosystem
- document the existing state of CL's IT systems and tools,
- develop a technology roadmap for the next 3 – 5 years to reach the recommended future-state, and
- review the current organizational structure for management of enterprise tools, and provide recommendations on governance strategy to manage CL Enterprise Ecosystem and the execution of the plan, including definition of the role of IT and other stakeholders
Consideration should be given to the following:

Opportunities/Gaps within CI’s current Enterprise IT Ecosystem
- Within our existing ecosystem, what systems/tools are performing well, and which are not.
- For the systems/tools that are not, is there a way to make adjustments to improve their effectiveness to meet business needs and which should be considered for replacement.
- What systems/tools are redundant and/or no longer needed.
- What additional systems/tools are needed.
- What are the opportunities for integration (data and processes) between existing/future systems.

General CI Enterprise Ecosystem Standards
- What systems/tools should CI offer at the enterprise level versus allow each country/division to create or select.
- How to balance flexibility to meet country/division needs and the need for standardization for process and reporting purposes.
- How to balance transparency of data with appropriate data security.
- How to structure the IT ecosystem to streamline data flow between related internal and external systems.
- How to incorporate and support continuous improvement of IT Ecosystem.
- How to provide tools and systems that are effective in low band-width locations.

Global IT Department Role, Responsibilities and Structure
- What IT’s role should be in project-specific conservation technology initiatives.
- What procedures and policies need to be developed to properly govern and maintain the IT infrastructure and
- What tools and staff resources are needed to properly maintain the ecosystem and manage risk.
- How Global IT can best support the work of the Conservation Technology Task Force.
- What is the ideal management structure for the IT function across the entire organization.

The following deliverables are anticipated for this engagement:

<table>
<thead>
<tr>
<th>Deliverable</th>
</tr>
</thead>
<tbody>
<tr>
<td>List of existing pain points of current architecture and impacts on business outcomes</td>
</tr>
<tr>
<td>List of system/tool/functionality gaps and opportunities for improvement</td>
</tr>
<tr>
<td>Recommendation on future-state Enterprise IT Ecosystem, including list of systems/tools to sunset, update, add, and integrate</td>
</tr>
<tr>
<td>Recommended IT roadmap for 3 – 5 years, including a prioritized list of actions for investment and adoption</td>
</tr>
<tr>
<td>Estimated costs for initiatives in the first 12 – 18 months</td>
</tr>
<tr>
<td>Recommendations for IT Governance Policy and structure</td>
</tr>
</tbody>
</table>
CI will provide requested documentation on organization structure, list of key stakeholders and roles, business process, and technical infrastructure. CI staff will make themselves available for interviews and deliverable reviews.

3. Submission Details
   a. Deadline. Proposals must be received no later than June 3, 2022, 9:00 PM Eastern Time. Late submissions will not be accepted. Proposals must be submitted via email to itcommunications@conservation.org. All proposals are to be submitted following the guidelines listed in this RFP.
   
   b. Validity of bid. 120 days from the submission deadline
   
   c. Clarifications. Questions may be submitted to itcommunications@conservation.org by the specified date and time in the timeline below. The subject of the email must contain the RFP number and title of the RFP. CI will respond in writing to submitted clarifications by the date specified in the timeline below. Responses to questions that may be of common interest to all bidders will be posted to the CI website and/or communicated via email.
   
   d. Amendments. At any time prior to the deadline for submission of proposals, CI may, for any reason, modify the RFP documents by amendment which will be posted to the CI website and/or communicated via email.

4. Minimum Requirements
   a. Direct experience performing similar work at no less than 3 large nonprofit organizations
   b. Direct experience advising clients with international offices.
   c. Expertise gathering requirements from technical and non-technical users
   d. Ability to conduct interviews and focus groups within standard business hours of Eastern Time Zone

5. Proposal Documents to Include
   a. Signed cover page on bidder’s letterhead with the bidder’s contact information.
   b. Signed Representation of Transparency, Integrity, Environmental and Social Responsibility (Attachment 1)
   c. Technical Proposal.
      i. Corporate Capabilities, Experience, Past Performance, and 3 client references. Please include descriptions of similar projects or assignments and at least three client references.
      ii. Qualifications of Key Personnel. Please attach CVs that demonstrate how the team proposed meets the minimum requirements listed in section 5 (Minimum Requirements).
      iii. Technical Approach, Methodology and Detailed Work Plan. The Technical Proposal should describe in detail how the bidder intends to carry out the requirements described in the Terms of Reference (Section 3)
   d. Financial Proposal. Offerors shall use the cost proposal template (Attachment 2).

6. Evaluation Criteria In evaluating proposals, CI will seek the best value for money considering the merits of the technical and costs proposals. Proposals will be evaluated using the following criteria:
### Evaluation Criteria

<table>
<thead>
<tr>
<th>Evaluation Criteria</th>
<th>Score (out of 100)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is the proposed approach and methodology appropriate to the assignment and practical in the prevailing project circumstances?</td>
<td>30%</td>
</tr>
<tr>
<td>Is the presentation clear and is the sequence of activities and the planning logical, realistic and promise efficient implementation to the project?</td>
<td>20%</td>
</tr>
<tr>
<td>Does the bidder’s past performance demonstrate recent proven experience doing similar work?</td>
<td>20%</td>
</tr>
<tr>
<td>Does the bidder and the proposed personnel have the specific technical expertise for the assignment?</td>
<td>20%</td>
</tr>
<tr>
<td>Cost: Consulting hours proposed are reasonable and realistic, reflect a solid understanding of the assignment.</td>
<td>5%</td>
</tr>
<tr>
<td>Cost: Hourly rates of personnel categories proposed are reasonable for the level of experience and project responsibility</td>
<td>5%</td>
</tr>
</tbody>
</table>

### 7. Proposal Timeline

<table>
<thead>
<tr>
<th>Event</th>
<th>Date/Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>RFP Issued</td>
<td>24 March 2022</td>
</tr>
<tr>
<td>Questions submitted to CI</td>
<td>31 March 2022</td>
</tr>
<tr>
<td>Responses to questions submitted to CI are distributed</td>
<td>6 April 2022</td>
</tr>
<tr>
<td>Complete proposals due to CI</td>
<td>13 April 2022</td>
</tr>
<tr>
<td>Vendor Interviews</td>
<td>18 April 2022 – 29 April 2022</td>
</tr>
<tr>
<td>RFP Re-Issued</td>
<td>11 May 2022</td>
</tr>
<tr>
<td>Questions submitted to CI</td>
<td>18 May 2022</td>
</tr>
<tr>
<td>Responses to questions submitted to CI are distributed</td>
<td>25 May 2022</td>
</tr>
<tr>
<td>Complete proposals due to CI</td>
<td>3 June 2022</td>
</tr>
<tr>
<td>Vendor Interviews</td>
<td>6 June 2022 – 17 June 2022</td>
</tr>
<tr>
<td>Final Selection</td>
<td>30 June 2022</td>
</tr>
</tbody>
</table>

### 8. Resulting Award

CI anticipates entering into an agreement with the selected bidder by 15 July 2022. Any resulting agreement will be subject to the terms and conditions of CI’s Services Agreement. A model form of agreement can be provided upon request.

This RFP does not oblige CI to execute a contract, nor does it commit CI to pay any costs incurred in the preparation or submission of the proposals. Furthermore, CI reserves the right to reject any and all offers, if such action is considered to be in the best interest of CI. CI will, in its sole discretion, select the winning proposal and is not obligated to share individual evaluation results.

### 9. Confidentiality

All proprietary information provided by the bidder shall be treated as confidential and will not be shared with potential or actual applicants during the solicitation process. This includes but is not limited to price quotations, cost proposals and technical proposals. CI may, but is not obliged to, post procurement awards on its public website after the solicitation process has concluded, and the contract has been awarded. CI’s evaluation results are confidential and applicant scoring will not be shared among bidders.
10. **Code of Ethics** All Offerors are expected to exercise the highest standards of conduct in preparing, submitting and if selected, eventually carrying out the specified work in accordance with CI’s Code of Ethics. Conservation International’s reputation derives from our commitment to our values: Integrity, Respect, Courage, Optimism, Passion and Teamwork. CI’s Code of Ethics (the “Code”) provides guidance to CI employees, service providers, experts, interns, and volunteers in living CI’s core values, and outlines minimum standards for ethical conduct which all parties must adhere to. Any violation of the Code of Ethics, as well as concerns regarding the integrity of the procurement process and documents should be reported to CI via its Ethics Hotline at [www.ci.ethicspoint.com](http://www.ci.ethicspoint.com).

11. **Attachments**

   Attachment 1: Representation of Transparency, Integrity, Environmental and Social Responsibility
   Attachment 2: Cost Proposal Template
Attachment 1: Representation of Transparency, Integrity, Environmental and Social Responsibility

All Offerors are expected to exercise the highest standards of conduct in preparing, submitting and if selected, eventually carrying out the specified work in accordance with CI's Code of Ethics. CI’s Code of Ethics provides guidance to CI employees, service providers, experts, interns, and volunteers in living CI’s core values, and outlines minimum standards for ethical conduct which all parties must adhere to. Any violations of the Code of Ethics should be reported to CI via its Ethics Hotline at www.ci.ethicspoint.com.

CI relies on the personal integrity, good judgment and common sense of all third parties acting on behalf of, or providing services to the organization, to deal with issues not expressly addressed by the Code or as noted below.

I. With respect to CI’s Code of Ethics, we certify:
   a. We understand and accept that CI, its contractual partners, grantees and other parties with whom we work are expected to commit to the highest standards of Transparency, Fairness, and Integrity in procurement.

II. With respect to social and environmental standards, we certify:
   a. We are committed to high standards of ethics and integrity and compliance with all applicable laws across our operations, including prohibition of actions that facilitate trafficking in persons, child labor, forced labor, sexual abuse, exploitation or harassment. We respect internationally proclaimed human rights and take no action that contributes to the infringement of human rights. We protect those who are most vulnerable to infringements of their rights and the ecosystems that sustain them.

   b. We fully respect and enforce the environmental and social standards recognized by the international community, including the fundamental conventions of International Labour Organization (ILO) and international conventions for the protection of the environment in line with the laws and regulations applicable to the country where the contract is to be performed.

III. With respect to our eligibility and professional conduct, we certify:
   a. We are not and none of our affiliates [members, employees, contractors, subcontractors, and consultants] are in a state of bankruptcy, liquidation, legal settlement, termination of activity, or guilty of grave professional misconduct as determined by a regulatory body responsible for licensing and/or regulating the offeror's business.

   b. We have not and will not engage in criminal or fraudulent acts. By a final judgment, we were not convicted in the last five years for offenses such as fraud or corruption, money laundering or professional misconduct.

   c. We are/were not involved in writing or recommending the terms of reference for this solicitation document.

   d. We have not engaged in any collusion or price fixing with other offerors.

   e. We have not made promises, offers, or grants, directly or indirectly to any CI employees involved in this procurement, or to any government official in relation to the contract to be performed, with the intention of unduly influencing a decision or receiving an improper advantage.

   f. We have taken no action nor will we take any action to limit or restrict access of other companies, organizations or individuals to participate in the competitive bidding process launched by CI.
g. We have fulfilled our obligations relating to the payment of social security contributions or taxes in accordance with the legal provisions of the country where the contract is to be performed.

h. We have not provided, and will take all reasonable steps to ensure that we do not and will not knowingly provide, material support or resources to any individual or entity that commits, attempts to commit, advocates, facilitates, or participates in terrorist acts, or has committed, attempted to commit, facilitate, or participated in terrorist acts, and we are compliant with all applicable Counter-Terrorist Financing and Anti-Money Laundering laws (including USA Patriot Act and U.S. Executive Order 13224).

i. We certify that neither we nor our directors, officers, key employees or beneficial owners are included in any list of financial or economic sanctions, debarment or suspension adopted by the United States, United Nations, the European Union, the World Bank, or General Services Administration’s List of Parties Excluded from Federal Procurement or Non-procurement programs in accordance with E.O.s 12549 and 12689, “Debarment and Suspension”.

Attachment 2: Cost Proposal Template

The cost proposal must be all-inclusive of profit, fees or taxes. Additional costs cannot be included after award, and revisions to proposed costs may not be made after submission unless expressly requested by CI should the offeror’s proposal be accepted. Nevertheless, for the purpose of the proposal, Offerors must provide a detailed budget showing major expense line items. Offers must show unit prices, quantities, and total price. All items, services, etc. must be clearly labelled and included in the total offered price. All cost information must be expressed in USD.

If selected, Offeror shall use its best efforts to minimize the financing of any taxes on goods and services, or the importation, manufacture, procurement or supply thereof. If Offeror is eligible to apply for refunds on taxes paid, Offeror shall do so. Any tax savings should be reflected in the total cost.

RFP Cost Proposal Template
